

Calvin H. Hirsch, M.D.

Philosophy of Care

I specialized in geriatrics because of the challenge of clinical diagnosis and management, along with a desire to improve the quality of care for elderly patients. My principal focus of care and research is the optimization of functional status and the prevention of functional decline. The diagnosis and management of dementia constitutes a second area of emphasis. In treating frail elderly people and those with cognitive impairment, I view the patient and caregiver as single inextricable unit. For elderly patients, a program of regular exercise to prevent a decline in mobility and balance and to reduce the risk of dependency is very important. Care should be coordinated by a primary-care physician to minimize inappropriate treatment and testing. UC Davis also can help through its extraordinary expertise and cutting-edge medical practice in a variety of disciplines.

Clinical Interests

Calvin H. Hirsch's special clinical interests include Alzheimer's disease and the clinical implications of normal aging. He chairs the Committee on Extreme Care, Humane Options (ECHO), a four-county, community-wide project to involve the public in health-care decisions and promote discussion of treatment preferences. His research interests include the correlates, preservation and optimization of physical functioning in the elderly; diagnosis and management of dementia; psychiatric and physical health effects of caregiving; and enhancing communication within the physician-caregiver-older patient triad. He also is studying the impact of arthritis-specific disability on home care and nursing home use, and the efficacy of resistance and band exercises for improving and maintaining strength and balance in community-dwelling frail elderly persons.

Title Professor of Clinical Internal Medicine

Specialty Geriatric Medicine, Internal Medicine

Department [Internal Medicine](#)

Division General Medicine

Center/Program Affiliation [Center for Healthcare Policy and Research](#)

Address/Phone Lawrence J. Ellison Ambulatory Care Center, General Medicine, 4860 Y St. Suites 0101 & 0400
Sacramento, CA 95817

Phone: 916-734-2737

Additional Phone Clinic Phone: 916-734-2737

Physician Referrals: 800-4-UCDAVIS (800-482-3284)

Education M.D., University of Connecticut, Farmington, Connecticut, 1980

Calvin H. Hirsch, M.D.

B.S., Yale University, New Haven, Connecticut, 1976

Internships Mt. Zion Hospital and Medical Center, San Francisco, California, 1980-83

Residency Mt. Zion Hospital and Medical Center, San Francisco, California, 1980-83

Fellowships Robert Wood Johnson Clinical Scholars Program
Stanford University, Palo Alto Veterans' MC, Palo Alto, California, 1987

Board Certifications American Board of Internal Medicine, 1983
American Board of Internal Medicine, Geriatric Medicine, 2009

Professional Memberships American College of Physicians
American Geriatrics Society
Gerontological Society of America
Society of General Internal Medicine

Honors and Awards Lange Award for Scholarship, University of Connecticut School of Medicine, 1980
Richard Gordon Memorial Fellowship, Epilepsy Foundation of America, 1978
