

Anthony F. Jerant, M.D.

Philosophy of Care

Dr. Jerant enjoys providing care across the full spectrum of family medicine, including care of children, adolescents and adults of all ages, and outpatient surgical procedures.

His goal is to provide comprehensive, evidence-based medical care to all of his patients, in a manner guided by his patients' values, preferences and health goals.

Research/Academic Interests

One of Dr. Jerant's main research interests is to seek ways of improving the care of common debilitating health conditions. A major focus of this work is to develop and evaluate approaches to increasing the patient's role in making treatment and other care decisions.

Dr. Jerant also does research evaluating new approaches to training physicians and to increasing diversity in the physician workforce.
