

Stephen J. Medawar, D.P.M.

Philosophy of Care

Dr. Medawar believes that medicine should be very personal. He takes the time necessary to explain problems to his patients. He uses drawings, models and literature to illustrate his patients' conditions. During his discussions, Dr. Medawar provides options for treatment and explains the importance of patients' daily participation in the treatment program. He has been a surgical podiatrist for over 20 years and enjoys sharing his experience with his fellow UC Davis Health System colleagues. Dr. Medawar has access to over 450 specialists should his patients need care outside of his field.

Clinical Interests

Dr. Medawar has been a surgical podiatrist for over 20 years. He chose podiatry because it enables him to help improve his patients' quality of life and decrease their pain.
