

## Brian A. Davis, MD, FABPMR, FACSM, FABNEM, FABRM

### Clinical Interests

Dr. Davis specializes in the nonsurgical treatment of sports and musculoskeletal disorders. He has published and lectured extensively on sports medicine topics and has provided medical care to all levels of athletes.

He served as the U.S. Team Physician for the 2004 Paralympic Team in Athens, Greece. He has also served as the Team Physician for USA Swimming, USA Track and Field, and the Sacramento River Cats Baseball Team (Triple A). He is currently the Co-Head Team Physician for the Sacramento Republic FC Soccer Team (MLS Div III) and Team Physician for the California State University, Sacramento (Sac State) athletic programs.

Dr. Davis also has provided medical sporting event coverage at the 2012 Olympics, 2010 Paralympics, the 2002 Olympic and Paralympic Games, the USA Track and Field Olympic Trials and National Championships, and the USA Boxing National Championships.

Dr. Davis employs the philosophy that exercise truly is medicine. He is a strong advocate for the use of exercise as a healing tool and to re-train athletes to return to their sport of enjoyment, whether it is at the professional or recreational level. He recommends Yoga, Pilates, Cross-Fit, physical therapy and many other training modalities to assist with athlete recovery.

He may recommend injections for improved health and is a leader in the area of the use of ultrasound for the evaluation of injuries and the guidance of injections where needed. He is one of several UC Davis Sports Medicine physicians that are using one's own blood via injection to attempt to stimulate healing without surgery.

Dr. Davis is the Sports Medicine Fellowship Director, alongside Dr. Brandee Waite. This program was one of the first in the nation to receive accreditation in Physical Medicine and Rehabilitation, and has been providing training since 2008. Dr. Davis has published and lectured extensively in areas related to Sports and Musculoskeletal medicine for over 20 years.

### Research/Academic Interests

Dr. Davis' academic areas of interest are related primarily to teaching physical examination skills, ultrasound examination and interventional techniques for students, residents and other faculty. He has mentored students and residents from all over the country to provide the foundations of Sports and Musculoskeletal Medicine to all levels of learners.

Dr. Davis' research areas of interest include:

1. Anterior Cruciate Ligament injury prevention in female athletes

## Brian A. Davis, MD, FABPMR, FACSM, FABNEM, FABRM

2. The hormonal and mechanical factors of knee arthritis in women
3. How Prolain effects exercise performance, metabolism and post-exercise recovery in athletes
4. The effect of elevATP on energy levels, metabolism and exercise performance in athletes
