

John R. Laird, M.D.

Clinical Interests Dr. Laird is an internationally renowned interventional cardiologist who has lectured and performed endovascular procedures around the world. His practice focuses on interventions for carotid artery disease, abdominal and thoracic aortic aneurysmal disease, renal artery disease and peripheral artery disease. Among his many areas of leadership and innovation are the investigation of new stents for carotid and peripheral vascular applications and the development of laser angioplasty. He uses the Excimer laser as a tool for complex peripheral interventions and in limb salvage situations. UC Davis Health System's acquisition of a laser in the summer of 2006 will allow the Vascular Center to add laser atherectomy to its clinical services. Dr. Laird is known for innovation, teaching vascular interventions to other physicians, and his role in organizing and conducting clinical trials of new therapies for vascular disease.

Title Medical Director, UC Davis Vascular Center
Professor of Medicine

Specialty [Cardiology](#), [Cardiovascular Medicine](#), Internal Medicine, Interventional Cardiology, Vascular and Endovascular Care

Department Internal Medicine

Division Cardiovascular Medicine

Center/Program Affiliation [Cardiovascular Services](#)
[Vascular Center](#)

Address/Phone Lawrence J. Ellison Ambulatory Care Center, 4860 Y St. Suite 2820 Sacramento, CA 95817
Phone: 916-734-3800

Additional Phone Physician Referrals: 800-4-UCDAVIS (800-482-3284)

Education M.D., Albany Medical College, Albany, New York, 1984

Internships Madigan Army Medical Center, Tacoma, Washington, 1985

Residency Madigan Army Medical Center, Tacoma, Washington, 1987

Fellowships Walter Reed Army Medical Center, Washington, District of Columbia, 1990

Board Certifications American Board of Internal Medicine, 1987

John R. Laird, M.D.
