

# UC Davis Medical Group Directory

Your guide to primary and specialty health-care providers

Patient information and  
appointment assistance:

800-2-UCDAVIS  
(800-282-3284)

Provider referral and  
transfer assistance:

800-4-UCDAVIS  
(800-482-3284)

**UCDAVIS**  
MEDICAL GROUP

[medicalgroup.ucdavis.edu](http://medicalgroup.ucdavis.edu)

**UC Davis Medical Group** offers nationally renowned primary care and specialty expertise based at UC Davis Medical Center and multiple medical offices across the greater Sacramento region. Medical group physicians, nurse practitioners and clinical nurse specialists emphasize wellness and prevention, apply the latest knowledge to solve health problems and offer access to promising clinical trials, newly proven therapies and advanced technologies when needed.

#### FOR PATIENTS

##### **Find a UC Davis physician, nurse practitioner or clinical nurse specialist**

Consumer Resource Center: **800-2-UCDAVIS (800-282-3284)**

- General information about available providers and services
- Assistance with appointments and referrals
- Information about accepted insurance plans

Established UC Davis patients can also use the MyChart web-based portal to communicate with their care teams, request certain appointments and refills, access medical records and more.

#### FOR HEALTH PROFESSIONALS

##### **Outpatient referrals and provider phone consultations**

UC Davis Physician Referral Center: **800-4-UCDAVIS (800-482-3284) Option #2** Monday | Friday, 8 a.m. to 5 p.m. Or online (non-urgent) requests via [referrals.ucdavis.edu](http://referrals.ucdavis.edu)

- Information about availability of specialty services
- Coordination and status of referrals to specialty services
- Assistance for provider-to-provider phone consultations with specialists

##### **Acute interfacility transfers and after-hours consultations**

24/7 Transfer Center: **800-4-UCDAVIS (800-482-3284)**

- Round-the-clock, R.N.-led coordination of acute interfacility transfers
- After-hours coordination of emergent provider-to-provider telephone consultations for complex or unusual cases
- transfer requests evaluated based upon clinical urgency, availability of resources and other factors

Referring physicians can receive real-time access to test results and clinical information for their patients at UC Davis through the PhysicianConnect online electronic medical record.

## Yung-Wei Willy Chi, D.O.

<b>Clinical Interests</b>	Dr. Chi is a nationally recognized expert in vascular medicine with clinical expertise on venous, arterial and lymphatic disorders. A prolific author and researcher, he has presented his research works and lectured at major national and international conferences. His research comprises all aspects of vascular medicine, focusing on vascular ultrasound imaging, anti-thrombotic therapy, cellular based/angiogenesis therapy for peripheral arterial disease, and venous diseases and interventions. As part of the first group of board-certified phlebologists in the U.S., Dr. Chi is a regional expert in catheter-based endovenous treatment of venous disorders.

## Lopa Dalmia, D.P.M

Lopa Dalmia welcomes LGBT patients.

### Philosophy of Care

I believe the key elements for successful treatment of foot and ankle pathology include patient education and the tailoring of conservative, minimally invasive or surgical procedures to my patients' individual needs and to their other existing or related health conditions.

I greatly value open communication with my patients and their family members in order to understand their expectations and formulate a treatment plan to improve their mobility and lifestyle.

### Clinical Interests

Dr. Dalmia delivers comprehensive medical, biomechanical and surgical treatment of the foot and ankle and is dedicated to helping her patients achieve and maintain excellent foot and ankle health throughout their lifetimes. Her special interests include reconstructive diabetic limb salvage procedures, pediatric and adult foot and ankle deformities, trauma and sports medicine. She is board qualified by the American Board of Podiatric Surgery.

### Research/Academic Interests

Dr. Dalmia is a faculty member and lecturer for the Podiatry Institute, an international teaching foundation for foot and ankle surgery. She has contributed to several medical textbooks, conference proceedings, and journals on reconstructive surgery for the foot, ankle and leg, and has been involved in international medical missions and lectures nationwide.

## David L. Dawson, M.D.

**Clinical Interests** Dr. Dawson specializes in vascular and endovascular surgery, including carotid artery disease, aortic aneurysm repair, and treatment of mesenteric and renal artery disease, venous disorders, diabetic foot problems, and other complex circulation disorders. He is internationally recognized for his research and expertise with peripheral artery disease. He is a decorated Air Force veteran who, before joining the faculty at UC Davis, worked at NASA as chief of the Medical Sciences Division at the Johnson Space Center in Houston, Texas. His expertise in aviation and space medicine complements his interest in applying advanced technologies, including simulation, to health care. He is also an FAA Aviation Medical Examiner. He has written numerous journal articles and book chapters, frequently lectures at both national and international conferences, and serves in leadership roles in regional and national professional societies. Dr. Dawson is also known for roles in surgical education, including as program director for UC Davis' vascular surgery residency and fellowship.

## Nasim Hedayati, M.D., MAS, FACS, RPVI

Nasim Hedayati welcomes LGBT patients.

### Philosophy of Care

Dr. Hedayati believes that the key elements for successful treatment of vascular diseases include risk factor modification, tailoring of the endovascular or open surgical procedures to individual patient needs and comorbidities, and patient education. She greatly values open communication with the patient and family members in understanding expectations and formulating a treatment plan.

### Clinical Interests

Dr. Hedayati specializes in complex vascular surgery, including revascularization of lower extremity arterial occlusive disease using endovascular and open techniques, aortic aneurysm repair, treatment of mesenteric and renal artery disease and treatment of varicose veins.

### Research/Academic Interests

Dr. Hedayati's research interests include outcomes of open bypass and endovascular procedures for lower extremity arterial disease with emphasis on effects of gender and race/ethnicity and the use of stem cells for the treatment of severe arterial disease of lower extremities. She also has a strong research interest in outcomes of treatment of varicose veins and complex venous disease.

## Misty D. Humphries, M.D., M.A.S., RPVI, F.A.C.S.

Misty D. Humphries welcomes LGBT patients.

### Philosophy of Care

Dr. Humphries believes comprehensive vascular care for patients with arterial and venous disease includes management of risk factors as well as disease treatment. She incorporates new research technologies with traditional vascular care, and believes that patients should take an active role in treatment planning.

Dr. Humphries also welcomes open communication with families in support of a common mission of optimal patient care.

### Clinical Interests

Dr. Humphries specializes in open vascular and advanced endovascular treatment for arterial and venous disease. Her primary clinic interest is in endovascular treatment of complex aortic aneurismal disease, as well as peripheral artery disease.

This has provided her the opportunity to speak on a national and international level about the use of advanced endovascular interventions in the treatment of complex aortic pathology, including aortic dissection and aneurismal disease.

### Research/Academic Interests

Dr. Humphries' research focuses on outcomes and disparities in care for patients with critical limb ischemia.

Her goal is to identify new treatment strategies to prevent limb loss in this population with advanced arterial disease of the lower extremity.

## Daniel P. Link, M.D.

<b>Clinical Interests</b>	Dr. Link specializes in radiological diagnosis and interventional evaluation for vascular malformations of various disease systems and the treatment of varicose veins as well as other venous conditions. He also provides angiography services and arterial embolization therapy. His research centers on blood-flow measurement techniques, with investigations into new embolic agents, combination embolic therapies, liver blood flow, and microscopic anatomical changes (histopathology) of chronic arterial occlusions.
<b>Title</b>	Chief of Interventional and Vascular Radiology Director of Vein Program Professor
<b>Specialty</b>	<a href="#">Radiology</a> , Radiology - Interventional Radiology, Vascular and Endovascular Care
<b>Department</b>	<a href="#">Radiology</a>
<b>Division</b>	Interventional Radiology
<b>Center/Program Affiliation</b>	<a href="#">Cardiovascular Services</a> <a href="#">Vascular Center</a>
<b>Address/Phone</b>	Lawrence J. Ellison Ambulatory Care Center, Radiology, 4860 Y St. Suite 3100 Sacramento, CA 95817 <b>Phone:</b> 916-734-0655
<b>Additional Phone</b>	Physician Referrals: 800-4-UCDAVIS (800-482-3284)
<b>Education</b>	M.D., Oregon Health & Science University School of Medicine, Portland, Oregon, 1969 B.A., Willamette University, Salem, Oregon, 1965
<b>Internships</b>	UC Davis Medical Center, Sacramento, California, 1969-1970
<b>Residency</b>	Sutter Community Hospitals, Sacramento, California, 1971-1973 UC Davis Medical Center, Sacramento, California, 1970-1971 UC Davis Medical Center, Sacramento, California, 1973-1974
<b>Fellowships</b>	Lunds Universite, Malmo, Sweden, 1975-1976
<b>Board Certifications</b>	American Board of Radiology, 1974 American Board of Radiology, Vascular and Interventional Radiology, 1995

## William C. Pevec, M.D.

William C. Pevec welcomes LGBT patients.

**Clinical Interests** William C. Pevec specializes in complex vascular surgery, including aortic reconstructions, mesenteric and renal artery reconstruction, and reconstructions of the arteries of the distal leg and foot. His practice includes both minimally invasive endovascular procedures and open reconstructions. His clinical research centers on reducing preoperative risks for and outcome assessment of patients undergoing vascular operations.

# Rex M. Pillai, M.D.

Rex M. Pillai welcomes LGBT patients.

**Philosophy of Care** Patients and their physicians turn to me to assist in the care of complex medical problems using the safe, minimally-invasive and innovative technologies the field of interventional radiology is built upon. I strive to provide individualized care to each of my patients based on the latest scientific evidence, practice experience from training at some of the nations' top institutions, and above all, their specific needs.

As an image-guided specialist, my patients are offered targeted, minimally-invasive, therapeutic options for diseases that have historically been untreatable or required extensive and morbid surgical operations.

**Clinical Interests** Rex Pillai, M.D., an assistant clinical professor, is a minimally-invasive vascular and image-guided specialist performing diagnostic and interventional procedures for adult and pediatric patients. He has expertise in tumour-directed arterial therapy (chemo and radioembolization), tumor ablation and high-intensity focused ultrasound therapies focusing on liver, kidney and bone cancers. He treats female patients with symptomatic fibroids (uterine fibroid embolization) and pelvic congestion syndrome as well as male patients with varicoceles. His specialized clinical interests also include the treatment of vascular and lymphatic malformations, and pediatric percutaneous and endovascular image-guided interventions.

**Research/Academic Interests** My research interests include application of high-intensity focused ultrasound in treating pediatric solid-organ tumors, novel treatments for vascular malformations, evaluating treatment methodologies and responses of hepatic tumours to radioembolization and biomedical device development.

## Jason H. Rogers, M.D.

Jason H. Rogers welcomes LGBT patients.

### Philosophy of Care

My philosophy of care is to give every patient an exceptional care experience at a level that I would provide for my own family. I enjoy listening to my patients' personal lives and view each one as an individual with unique concerns and needs. My goal is to always provide the highest level of compassionate and skillful care for my patients.

### Clinical Interests

Dr. Rogers is board certified in interventional cardiology and vascular medicine, and is an integral member of the cardiovascular clinical and research program. He serves as the Director of Interventional Cardiology and is the Program Director for the Interventional Cardiology Fellowship.

Dr. Rogers has been widely published and has served as invited faculty at national and international meetings. His current clinical focus is the treatment of adult structural heart disease using minimally invasive transcatheter methods, such as MitraClip therapy for mitral regurgitation and transcatheter left atrial appendage occlusion.

### Research/Academic Interests

Dr. Rogers serves as the Medical Director of the Cardiovascular Medicine Clinical Research Unit. Research is directed at the treatment of adult structural heart disease with an emphasis on the management of valvular heart disease using emerging minimally invasive and percutaneous procedures.

## Jamie L. Ross, M.D.

Jamie L. Ross welcomes LGBT patients.

<b>Clinical Interests</b>	<p>Interventional nephrology is a subspecialty designed to ensure that patients receive and maintain the vascular and/or peritoneal access they need to start or continue dialysis. Using the latest techniques in fluoroscopic evaluation and intervention, Dr. Ross diagnoses, treats and monitors patient dialysis access. She has been dedicated to this type of care for more than 10 years, ensuring that kidney disease patients have a better quality of life.</p> <p>Dr. Ross focuses her research on the triad of blood flow, vascular injury and accelerated thrombosis to improve the success of vascular dialysis access. These areas of vascular research are all vital to understanding the accelerated damage to blood vessels that is prevalent in kidney disease patients.</p>

## Gagan D. Singh, M.D., M.S.

Gagan D. Singh welcomes LGBT patients.

### Philosophy of Care

Deliver patient-centered, evidence-based, quality cardiovascular care through a compassionate and open patient-physician relationship. My hope is for each patient to receive personalized care for their given lifestyle, quality of life, and overall goals.

Not all patients fit the mold of clinical trials and no single patient nor their families want to be treated as such. Each patient presents with a problem that is unique to them and while there may be many different ways to treat a particular problem, my job is to find the solution that best fits the patient's needs in efforts to improve quality of life and their overall lifespan.

### Clinical Interests

Dr. Singh is a board certified cardiologist and interventional cardiologist who received his medical degree from New York Medical College with induction to the Alpha Omega Alpha Society on graduation. He completed both internship and residency at Stanford University. He completed his cardiology, interventional cardiology, and vascular medicine/intervention training at UCDMC where he received Clinical Fellow of the Year Award and Trainee Research Award with the Department of Internal Medicine.

His clinical interests are the development, practice, and research of a range of minimally invasive procedures for the treatment of complex coronary, structural, and vascular diseases. His other major interest is in educating and mentoring the doctors of tomorrow by working with medical students, residents, and fellows on the inpatient and outpatient cardiology services, and creation and development of research projects to help foster life-long learning and evidence based medical practice.

### Research/Academic Interests

Dr. Singh is an investigator on multiple research protocols directed at the treatment of heart and vascular disease. He has co-authored several published articles relating to his research interests.

**Title** Assistant Clinical Professor

**Specialty** Internal Medicine, [Cardiology](#), [Cardiovascular Medicine](#), Interventional Cardiology, Vascular Medicine, Peripheral Vascular Interventions

**Department** [Internal Medicine](#)

**Division** Cardiovascular Medicine

**Center/Program Affiliation** [Vascular Center](#)

[Cardiovascular Services](#)

**Address/Phone** Lawrence J. Ellison Ambulatory Care Center, 4860 Y St. Suite 0200 Sacramento, CA 95817

## Gagan D. Singh, M.D., M.S.

**Phone:** 916-734-3761

**Additional Phone** Fax: 916-734-0370  
Clinic Phone: 800-821-9910  
Physician Referrals: 800-4-UCDAVIS (800-482-3284)

**Languages** Hindi, Punjabi, Spanish

**Education** M.D., New York Medical College, Valhalla NY 2008  
M.S., Physiology, New York Medical College, Valhalla NY 2004  
B.A., Manhattanville College, Purchase NY 2001

**Internships** Internal Medicine, Stanford University Hospital, Stanford CA 2008-2009

**Residency** Internal Medicine, Stanford University Hospital, Stanford CA 2009-2011

**Fellowships** Cardiovascular Medicine, UC Davis Medical Center, Sacramento CA 2011-2014  
Interventional Cardiology, UC Davis Medical Center, Sacramento CA 2014-2016

**Board Certifications** American Board of Internal Medicine  
American Board of Internal Medicine, Cardiovascular Medicine

**Professional Memberships** American College of Cardiology  
Society of Coronary Angiography and Interventions

**Honors and Awards** First Place, Society for Cardiovascular Angiography and Interventions 2015 C3 Annual Summit for Interventional Fellows-in-Training. SCAI 2015 Scientific Sessions. San Diego, CA, 2015  
Finalist, Best Cases of the Year, Trans-Valvular Therapeutics (TVT) 2014. ?More is less: multiple MitraClip? therapy for severe degenerative mitral regurgitation.? Vancouver, British Columbia, Canada, 2014  
Trainee Research Award, Department of Internal Medicine, University of California (Davis) Medical Center, Sacramento CA, 2014  
Clinical Fellow of the Year Award, University of California (Davis) Medical Center, Sacramento CA, 2012  
Department of Medicine Excellence in Research Award, New York Medical College, Valhalla, NY, 2008  
Alpha Omega Alpha Inductee, New York Medical College, Valhalla, NY, 2007

**Select Recent Publications** Laird JR, Singh GD. Drug-Coated Balloons as the New Standard of Care for Femoropopliteal In-Stent Restenosis: FAIR Assumption? Circulation. 2015 Dec 8;132(23):2198-200.

## Catherine T. Vu, M.D., DABR

Catherine T. Vu welcomes LGBT patients.

### Philosophy of Care

Interventional Radiology (IR) is a thriving field, delivering minimally invasive treatment over a spectrum of health care needs, from cancer therapy to acute injury management in trauma. Treatments that historically require open surgery can be performed with needles and catheters using image guidance, such as ultrasound, CT and fluoroscopy. IR is at the helm of "cutting edge" medicine. Patients turn to us when they seek treatment alternatives to surgery. We place quality and patient-centered care at the forefront, providing pre-procedure consultation and post-procedure management. We work collaboratively with primary care providers, as well as all medical and surgical specialties.

### Clinical Interests

Dr. Vu's specific clinical interests are interventional oncology, including TACE and Y-90 SIRT, acute and chronic venous interventions, dialysis management, and women's health. She has a comprehensive venous practice, offering modern techniques in the treatment of both superficial and deep veins, complex IVC filter retrieval, and venous re-canalization. The scope of her women's health practice includes uterine fibroid embolization, pelvic congestion, and deep venous thrombosis.

**Title** Chief- Vascular and Interventional Radiology  
Medical Director Interventional Services

**Specialty** Interventional Radiology, Radiology - Vascular
