VPN Configuration for Windows 7

1. Open the Control Panel on Windows 7 by clicking on Start and then 'Control Panel'
2. Select **Set up a connection or network**.
3. Select **Connect to a workplace** and click **Next**.
4. Select **Use my Internet Connection (VPN)**.

**NOTE:** If prompted for "Do you want to use a connection that you already have?", select **No, create a new connection** and click **Next**.

**PLEASE MAKE SURE TO ENTER THE FOLLOWING INFORMATION IN THE NEXT SCREEN DISPLAYED (NOT SHOWN)**

5. In the **Internet Address:** field, type **152.79.254.10**
6. In the **Destination Name:** field, type **UCDHS VPN**
7. In the **User Name:** field, type your ucdhs Logon ID. Your UCDHS Logon ID is the Active Directory name and password, also used to log in to CITRIX (HSAPPS).

8. In the **Password:** field, type your UCDHS Logon ID password.

9. Enter HS in the **DOMAIN Field**
10. Click the **Create** button and then click the **Close** button.
11. To connect to the VPN server after creating the VPN Connection, click on **Start**, then **Connect to**.

12. Select the VPN connection in the window below (**UCDHS VPN**) and click **Connect**. (IGNORE UCLA information shown)
