Our oncology trained pharmacist and nurse practitioner will ensure you know how to take your medications, teach you how to manage side effects, and review potential drug-to-drug interactions.

Oral chemotherapy medications often are costly, require insurance authorization, and are difficult to obtain. For these reasons, most retail pharmacies do not handle oral chemotherapy prescriptions. Our pharmacy works with your oncologist and our technicians obtain authorization in a timely manner for you, in order to avoid delays.

ADVANTAGES OF OUR PROGRAM

- New Medication Adherence Program collaboration between your oncologist, nurse practitioner, and pharmacist.
- Personal Pharmacist You may contact your pharmacist by voicemail or email and he/she will return your call. Your pharmacist will provide ongoing compliance monitoring and check on your progress over the phone to discuss any therapy-related issues.
- Medication Delivery For your convenience, we will set up delivery over the phone. We can deliver to your home or directly to you at your next Cancer Center visit, at no extra charge.
- We Carry Most Oral Chemotherapies
- Insurance Billing Our expert technicians obtain insurance authorization for you. We accept most major insurance plans, including Medicare B. Most retail pharmacies do not handle Medicare B billing.

Specialty Pharmacy Oncology Service

Medication Adherence Program For Oral Chemotherapy

Welcome to the Medication Adherence Program. Oncology Pharmacists specialize in oncology medications and infusion therapy. We work together with your oncologists, nurse practitioner, nurses, and other health care providers to ensure safe medication use. We have seven Board Certified Pharmacotherapy and Oncology Specialist Pharmacists on site.

How the program works

We offer clinic appointments with an oncology pharmacist to review your oral chemotherapy treatment. To make sure our patients understand their treatment, we check on them at home between clinic visits to help with issues they may be experiencing.

At the first meeting, we will review

- The purpose of their medicine
- How to take their medicine and special administration instructions
- The importance of medication adherence and what to do when you miss a dose
- Common and rare side effects for your medicine and how to handle them
- Review your medication list for potential drug interactions
- Answer other medication-related questions

After the first meeting, our pharmacy team will call you once a month. They check on your progress, answer any questions, and prepare your next refill. We offer free of charge, mail delivery of your oral chemotherapy directly to your home. During the telephone calls, we will

- Make sure you are taking your medicine as prescribed
- Ask you if you have missed any doses. Provide tips to help you remember to take your medicine.
- Ask if you are experiencing new side effects.
- Review relevant lab results for your specific medicine.
- Work with your oncologist for any new issues.
Advantages of the program

Personal Pharmacist

- You may contact a pharmacist by voicemail (916) 703-2707 and he/she will return your call.

Medication Delivery

- For your convenience, we mail oral chemotherapy medicines to your address (requires signature), free of charge. Payment can be made over the phone using a credit card. You may also choose to pick up at the Pharmacy, located on the first floor of the Comprehensive Cancer Center.

We Carry Most Oral Chemotherapy Medications

- Oral chemotherapy medications often are costly, require insurance authorization, and are difficult to obtain. For these reasons, most retail pharmacies do not handle oral chemotherapy prescriptions. Our pharmacy works with your oncologist and our technicians obtain authorization in a timely manner for you, in order to avoid delays.

Insurance Billing

- Our expert technicians obtain insurance authorization for you. We accept most insurance plans, including Medicare B. Most retail pharmacies do not accept Medicare B insurance billing for covered prescriptions.

Enrollment

Fill out the enrollment form. You may mail or fax it to our pharmacy. You may also drop the form off at the Pharmacy located on the first floor of the Comprehensive Cancer Center.
