**Program Directors**

- Kori Harder, RN, MS, CNS, CCRP
  - Director, Cardiovascular Clinical Operations
  - UC Davis Heart & Vascular Center
- Janine Neely, RN, MSN, CNS
  - Cardiovascular Clinical Nurse Specialist
  - UC Davis Heart & Vascular Center

**FACULTY**

**UC Davis Health System Faculty**

- B. Zane Atkins, MD
  - Assistant Professor, Cardiothoracic Surgery
  - Colonel, USAF
- Stuart Berger, MD
  - Professor, Pediatric Cardiology
  - Medical Director, UC Davis Pediatric Heart Center
- Reginald Low, MD
  - Professor, Cardiovascular Medicine
  - Medical Director, UC Davis Heart & Vascular Center
- Femi Philip, MD
  - Assistant Professor, Cardiovascular Medicine
- Jason Rogers, MD
  - Professor, Cardiovascular Medicine
- Gagan Singh, MD
  - Cardiovascular Interventional Fellow
- Thomas Smith, MD
  - Assistant Professor, Cardiovascular Medicine
- Jeffrey Southard, MD
  - Associate Professor, Cardiovascular Medicine
- Uma Srivatsa, MD
  - Associate Professor, Cardiovascular Medicine
- Kathy Tong, MD
  - Assistant Professor, Cardiovascular Medicine

**Program Materials**

Speaker presentations will be available at the UC Davis Heart & Vascular Website for 4 weeks following the symposium:

http://www.ucdmc.ucdavis.edu/internalmedicine/cardio/
OBJECTIVES

• Describe the contemporary evolution of coronary stents.

• Name two potential complications from device implantation.

• Describe the process for Mitra-Clip implantation.

• Describe two congenital heart defects that can be treated in the Cardiac Catheterization Laboratory.

• Name one anti-platelet and one new oral anticoagulant used in patients who undergo invasive cardiovascular procedures.

• Name two strategies in the treatment of Chronic Total Occlusions.

• List two criteria that qualify patients for a surgical VATS Maze procedure.

• Describe two differences between the commercially and non-commercially available transcatheter aortic valve systems.

• Identify the appropriate patient population for the CardioMEMS procedure.

• Correctly identify two anatomical heart structures as seen on Computed Axial Tomography (CAT).

• Name two procedures in which the transseptal approach is used.

• Describe when interventional treatment of left main disease is appropriate in the Cardiac Catheterization Laboratory.

REGISTRATION IS ON-LINE ONLY

On-Line website: conferences.ucdavis.edu/cardiovascular

REGISTRATION IS $80

AFTER APRIL 17TH REGISTRATION WILL BE $85

• Fee includes continental breakfast, lunch, parking, and Contact Hours

CANCELLATION POLICY

A refund of the registration fee, less $25 administrative fee, will be allowed if requested, in writing, by April 17th, 2015. No refunds will be provided after this date. In the event that this symposium is cancelled, UC Davis Heart & Vascular Center (UCDHVC) will refund all paid registration fees. UCDHVC will not be responsible for other expenses incurred.

CONTINUING EDUCATION

Provider approved by the California Board of Registered Nursing, Provider Number 15703, for 7.8 contact hours. Category A CE credit is pending approval by the ASRT.
COURSE DESCRIPTION
This one day symposium will provide an excellent understanding of the most current therapeutic options available to the cardiovascular patient. Our esteemed faculty will present the latest advancements in cardiovascular medical and surgical care.

CONTINUING EDUCATION
Provider approved by the California Board of Registered Nursing, Provider Number 15703, for 7.8 contact hours. Category A CE credit is pending approval by the ASRT.

CANCELLATION POLICY
Please note there will be a $25 dollar cancellation fee upon written request prior to April 17th, 2015. Refunds will not be available after this date.
