The Dept of Int Med/Div of Hematology and Oncology, School of Medicine, University of California, Davis is seeking a TENURED FACULTY OUTCOMES RESEARCHER with an MD and/or PhD degree in Epidemiology, Biostatistics, Health Services Research or one of the Social Sciences. Candidates must possess an MD and/or PhD in epidemiology, biostatistics, health services research, or one of the social sciences. If an MD candidate, must be board certified in Internal Medicine, Hematology and/or Medical Oncology and be eligible for licensure in the state of California.

Primary responsibilities of this position are to be engaged in teaching, clinical and professional activity, University/public service. The successful candidate will be a member of an outcomes research group that will work closely with other division, department and school faculty and groups to advance scholarship and practice related to hematology/oncology healthcare access, quality, costs, delivery, comparative effectiveness, or implementation. The candidate’s research focus may be in health services, clinical epidemiology, biostatistics comparative effectiveness, implementation, or outcomes (or any combination). Clinical activity will be required and include supervision in both inpatient and outpatient settings, where he/she will supervise and teach medical students, residents and fellows.

Qualified applicants should upload a letter of interest, five references and their curriculum vitae online at https://recruit.ucdavis.edu/apply/JPF00198 by 3/31/2014. Questions regarding this position should be emailed to HemOncJobs@ucdavis.edu
