Medical Microbiology and Immunology

MMI 291 Seminar Series

Emerging Challenges in Microbiology and Immunology
Current Theme: Interdisciplinary Research

Mary O’Riordan, Ph.D.
Professor and Associate Dean of Graduate & Postdoctoral Studies
Department of Microbiology & Immunology
University of Michigan Medical School, Ann Arbor

“Cells on Fire: Regulation of Inflammation by Cellular Stress”

Friday, May 4, 2018 – 12:10-1:00 PM
Genome and Biomedical Sciences Facility, Auditorium Room 1005

Research work: Dr. O’Riordan’s research interests include bacterial pathogenesis, bacterial metabolism, innate immunity, mitochondrial function, microbiology, graduate education. Glad to meet with anyone, especially students/postdocs.
