NOW RECRUITING RESEARCH PARTICIPANTS

Join Our Research!

UC Davis MIND Institute researchers and clinicians are hard at work to discover new treatments and the causes of neurodevelopmental disorders. This important research cannot be done without you!

Who can participate?

- We need participants of all ages, infants, pre-school and school-aged children, teens and adults
- Individuals with Autism Spectrum Disorder (ASD), Attention Deficit/Hyperactivity Disorder (ADHD), Chromosome 22q11.2 Deletion Syndrome, Fragile X Syndrome, and Down Syndrome
- Individuals who are typically developing

What should I expect?

This varies from study to study, but may include:

- Research assessments by a team of professionals using a range of methods including standardized assessments, IQ and behavioral testing
- Gain access to experimental treatments that are only available to research study participants
- You may get a picture taken of your brain (fMRI or MRI scans)

What else can be expected?

- Results of research assessments, as well as feedback on your child's development
- Contributing to advancing science and improving the health of future generations

About the MIND Institute

The UC Davis MIND Institute is a collaborative international research center, committed to the awareness, understanding, prevention and care of neurodevelopmental disorders.

Sign up for research

To learn more about participating in research, call Brittani Hilscher at 916-703-0299. You can also register online at <https://mindweb.ucdmc.ucdavis.edu/studies/index.php>

The MIND Institute is located at 2825 50th St., Sacramento, CA 95817.
