

UC DAVIS
ALZHEIMER'S DISEASE
CENTER

“Dementia: What is it?
What are the Causes?”

Dr. Dan Mungas

Thursday, September 25, 2014
UC Davis MIND Institute
6:00 – 7:00 p.m.

Dr. Mungas, PhD is a Professor of Neurology in the Department of Neurology and an Associate Director at the Alzheimer's Disease Center, at the University of California Davis. He is a recognized authority in the diagnosis and treatment of senile dementia and Alzheimer's disease.

His clinical background in Alzheimer's disease and related dementias is complemented by a research program that derives from clinical experience and contributes to findings to guide clinical care.

This lecture will describe dementia in older people, its symptoms, and how it is diagnosed. The major causes of dementia including Alzheimer's disease, cerebrovascular disease, Lewy body disease, and fronto-temporal degeneration will also be explained.
