Address: 2315 Stockton Blvd, Sacramento, CA 95817

Referral phone: 916-734-2011

Email: dramparano@ucdavis.edu

Specialty: Orthopaedic Surgery

Philosophy of Care:

My philosophy of care revolves around a patient-centered approach that prioritizes compassion, collaboration, and comprehensive healthcare. I believe in establishing a therapeutic alliance with my patients - built on trust, respect, and open communication.

I am committed to providing holistic care that considers not only the physical aspects of orthopedic conditions but also my patients' emotional and psychological well-being. I recognize the unique challenges that individuals facing musculoskeletal issues may encounter, and I aim to address these challenges with empathy and understanding.

Advocacy for patient rights and well-being is another fundamental aspect of my philosophy. I strive to be a voice for my patients, ensuring that their concerns are heard, and their preferences are respected throughout the healthcare journey.

By embracing these principles, I aim to contribute to the overall well-being and positive outcomes of individuals under my care.
