## **Description of Services**

### **Extending the utility and scope of ICNP®**

#### **Description of services:**

Activities will support ongoing and new research around the International Classification for Nursing Practice (ICNP), in collaboration with the eHealth Programme at the International Council of Nurses.

#### **These activities include:**

- Facilitate the ongoing development, management, and distribution of ICNP
  - Investigate processes to facilitate additions, amendments and retirements to Web Ontology Language (OWL) representations of ICNP
- Maintain repository (database) of ICNP across versions
  - Identify and test potential mechanisms for version management
  - Investigate and test processes to facilitate release and distribution of updates, new versions, subsets and translations.
  - Propose solution to streamline release of 2015 Version.

#### **Deliverables:**

- 1 October 2012 ~ 1 May 2013 – Participate in finalizing ICNP Version 2013
- Mid October 2012 – Attendance at International Health Terminology Standards Development Organisation (IHTSDO) Meeting (Copenhagen)
- Late October 2012 – Attendance at ICN eHealth Strategic Advisory Group (SAG) meeting (Geneva)
- 7 December 2012 – Submit abstract to Medinfo 2013 Conference
- March 2013 – Submit an abstract for American Medical Informatics Association (AMIA) 2013 Conference

#### **Additional activities:**

- Serve on ICN eHealth Strategic Advisory Group
- Contribute to the ongoing update and refinement of ICNP
- Attendance at additional meeting or conferences, as requested by ICN and as available (cost of travel and per diem to be provided by ICN)
